## CIRAD – Locust ecology & control unit

### Bibliographical query results, issued April 2007.

---

1. **ABBASSI K., ATAY K.Z. & GHAOUT S., 2003.** – Biological effects of alkaloids extracted from three plants of Moroccan arid areas on the Desert locust. – *Physiological Entomology*, (3), 232-236.
2. **ABD ELRAHIM M.A., ELHASSAN S.M. & BASHIR M.O., 2006.** – Comparative efficacy of blastospores and conidia of *Metarhizium anisopliae* var. *acridum* IMI 330189 in the control of the Desert locust. – *University of Khartoum, Journal of Agricultural Sciences*, **14**(1), 88-103.
3. **ABDULGADER A. & MOHAMMAD K.U., 1990.** – Taxonomic significance of epiphallus in some Libyan grasshoppers (*Orthoptera: Acridoidea*). – *Annals of Agricultural Science (Cairo)*, **35**(special issue), 511-519, illustr.
4. **ABRAMS P.A. & SCHMITZ O.J., 1999.** – The effect of risk of mortality on the foraging behaviour of animals faced with time and digestive capacity constraints. – *Evolutionary Ecology Research*, **1**(3), 285-301.
5. **ABU Z.N., 1998.** – A nematode parasite from the lung of Mynah birds at Jeddah, Saudi Arabia. – *Journal of the Egyptian Society of Parasitology*, **28**(3), 659-663.
6. **ACHTEMEIER G.L., 1992.** – Grasshopper response to rapid vertical displacements within a “clear air” boundary layer as observed by doppler radar. – *Environmental Entomology*, **21**(5), 921-938, includes references.
7. **ACKONOR J.B. & VAJIME C.K., 1995.** – Factors affecting *Locusta migratoria migratorioides* egg development and survival in the Lake Chad basin outbreak area. – *International Journal of Pest Management*, **41**(2), 87-96.
8. **ADEYEYE E.I., 2005.** – Amino acid composition of variegated grasshopper, *Zonocerus variegatus*. – *Tropical Science*, **45**(4), 141-143, 7 ref.
9. **ADIS J. & JUNK W.J., 2003.** – Feeding impact and bionomics of the grasshopper *Cornops aquaticum* on the water hyacinth *Eichhornia crassipes* in Central Amazonian floodplains. – *Studies on Neotropical Fauna and Environment*, **38**(3), 245-249.
10. **ADIS J., LHANO M.G., HILL M., JUNK W.J., MARQUES MARINEZ I. & OBERHOLZER H., 2004.** – What determines the number of juvenile instars in the tropical grasshopper *Cornops aquaticum* (Leptysmiinae : Acrididae : Orthoptera) ? – *Studies on Neotropical Fauna and Environment*, **39**(2), 127-132.
11. **ADIS J., BUSTORF E., LHANO M.G., AMEDEGNATO C. & NUNES A.L., 2007.** – Distribution of *Cornops* grasshoppers (Leptysmiinae : Acrididae : Orthoptera) in Latin America and the Caribbean Islands. – *Studies on Neotropical Fauna and Environment*, **42**(1), 11-24, Zoology.
12. **AGRO D., 1994.** – Grasshoppers as food source for black-billed cuckoo. – *Ontario Birds*, **12**(1), 28-29.
13. **AHAD M.A., SHAHJAHAN M. & TALUKDER F.A., 1995.** – The relative importance of predators for the control of *Nephotettix* spp. on rice. – *Pakistan Journal of Scientific and Industrial Research*, **38**(5-6), 230-232.
14. **AHI J., 1997.** – Aldrin (an Organochlorine Pesticide) Induced Histopathological Changes In The Midgut Of Adult *Poecilocus pictus* (Fabr.) Orthoptera: Acrididae. – *Himalayan Journal Of Environment And Zoology*, **11**(2), 71-76, illustr.

15. **AHMED K., EL ALFY N., RAMADAN H. & EL GOHARY H., 2005.** – Histopathological effects of anti-juvenile hormone precocene I and II on ovaries of grasshopper *Eyprepocnemis plorans* (Charp.) (Orthoptera: Acrididae) using light and electron microscope. – *Journal of the Egyptian German Society of Zoology*, **47**(E), 107-134.
16. **AHNESJO J. & FORSMAN A., 2006.** – Differential habitat selection by pygmy grasshopper color morphs, interactive effects of temperature and predator avoidance. – *Evolutionary Ecology*, **20**(3), 235-257.
17. **AKIMOTO S.I., SAKURAI Y. & TATSUTA H., 1993.** – Geographic variation in the shape and allometry of the brachypterous grasshopper *Podisma sapporensis*. – *Japanese Journal of Entomology*, **61**(3), 625-640.
18. **AKMAN G.N.E. & GULEL A., 2002.** – Effect of temperature on development, sexual maturation time, food consumption and body weight of *Schistocerca gregaria* Forsk. (Orthoptera: Acrididae). – *Turkish Journal of Zoology*, **26**(2), 223-227.
19. **ALAOUI A., MOREAU R. & GOURDOUX L., 1997.** – Effect of deltamethrin on glucose catabolic pathways in the isolated fat body of adult male *Locusta migratoria*. – *Comparative Biochemistry and Physiology, C*, **116**(1), 17-21.
20. **ALI D.W. & ORCHARD I., 1994.** – Characterization of dopamine and serotonin receptors on the salivary glands of the locust *Locusta migratoria*. – *Biogenic Amines*, **10**(3), 195-212.
21. **ALI D.W., 1997.** – The aminergic and peptidergic innervation of insect salivary glands. – *Journal of Experimental Biology*, **20**(14), 1941-1949.
22. **ALLAN E.J., EESWARA J.P., JARVIS A.P., MORDUELUNTZ A.J., MORGAN E.D. & STUCHBURY T., 2002.** – Induction of hairy root cultures of *Azadirachta indica* A. Juss. and their production of azadirachtin and other important insect bioactive metabolites. – **21**(4), includes references.
23. **ALSOP G.B. & ZHANG D.C., 1999.** – Spindle structure is not required for initiation of cytokinesis but is required for cleavage furrow positioning. – *Molecular Biology of the Cell*, **10**(SUPPL.), p. 239a.
24. **ALWARD R., 1994.** – *Bouteloua gracilis* growth rates and herbivory damage rates similarly influenced by edaphic and competitive environments. – *Bulletin of the Ecological Society of America*, **75**(2), p. 4.
25. **AMARASEKARE K.G. & EDELSON J.V., 2004.** – Effect of temperature on efficacy of insecticides to differential grasshopper (Orthoptera: Acrididae). – *Journal of Economic Entomology*, **97**(5), 1595-1602.
26. **AMATOBI C.I., 1996.** – Egg development and nymphal emergence of *Kraussaria angulifera* Krauss (Orthoptera : Acrididae) in relation to rainfall in the sudan savannah of Nigeria. – *Journal of African Zoology*, **110**(6), 375-379.
27. **AMEDEGNATO C. & POULAIN S., 1994.** – New data on North-andean and Northwestern-amazonian acridid communities : the *Romaleidae* (Orthoptera : Acridoidea). – *Annales de la Société Entomologique de France*, **30**(1), 1-24.
28. **AMEDEGNATO C., RUIZ BALIU A. & CARBONELL C.S., 1995.** – Acridid fauna of Cuba (Orthoptera) a synopsis of its taxonomy and origin. – *Revista Brasileira de Entomologia*, **39**(3), 683-708.
29. **AMEDEGNATO C. & POULAIN S., 1998.** – New acridoid taxa from northwestern South America : their significance for the phylogeny and biogeography of the family *Acrididae* (Orthoptera). – *Annals of the Entomological Society of America*, **91**(5), 532-548.
30. **AMEDEGNATO C. & POULAIN S., 2000.** – The Mexican Endemic Genus *Teinophaus* (Orthoptera, Acrididae, Ommatolampinae). – *Revue Française d'Entomologie (nouvelle série)*, **22**(4), 154-158.
31. **AMMAR M., BARBOUCHE N. & HAMOUDA M.H.B., 1995.** – Leaves extracts from *Cestrum parquii* and *Olea europaea* on longevity and growth of locust : *Schistocerca gregaria*. – *Mededelingen Faculteit Landbouwkundige en Toegepaste Biologische Wetenschappen Universiteit Gent*, **60**(3A), 831-833.

32. **AMORIM M.A. & ADIS J., 1994.** – Food consumption of a neotropical grasshopper, *Stenacris fissicauda fissicauda* (Brunner, 1908) (Orthoptera : Acrididae) from the amazonian “varzea”. – *Acta Amazonica*, **24**(3-4), 289-301, illustr.
33. **AMORIM M.A. & ADIS J., 1995.** – Development of nymphs in the neotropical, semi-aquatic grasshopper *Stenacris fissicauda fissicauda* (Brunner, 1908) (Orthoptera : Acrididae) under controlled conditions. – *Acta Amazonica*, **25**(1-2), 73-91, illustr.
34. **AMUTHA S., AMSATH A., MUTHUKUMARAVEL K. & SAVARIMUTHU A., 2005.** – Histopathological changes in the alimentary canal of the small rice grasshopper, *Oxya nitidula* (Walker) exposed to monocrotophos. – *Journal of Experimental Zoology*, **8**(1), 125-128.
35. **ANDERSEN A.N., LUDWIG J.A., LOWE L.M. & RENTZ D.C.F., 2001.** – Grasshopper Biodiversity And Bioindicators In Australian Tropical Savannas: Responses To Disturbance In Kakadu National Park. – *Austral Ecology*, **26**(3), 213-222.
36. **ANDERSEN S.O., 2001.** – Matrix proteins from insect pliable cuticles: are they flexible and easily deformed. – *Insect Biochemistry and Molecular Biology*, **31**(4/5), 445-452, includes references.
37. **ANDERSON R.C., BARNES E.T. & BARLETT C.M., 1993.** – Restudy of *Spirura infundibuliformis* McLeod, 1933 (Nematoda : Spiruroidea) from *Spermophilus richardsonii*, with observation on its development in insects. – *Canadian Journal of Zoology*, **71**(9), 1869-1873, includes references.
38. **ANONYME, 1987.** – *Agricultural research in Malawi miscellaneous papers*. – illustr., maps, 30 cm.
39. **ANONYME, 1993.** – Time for a new approach to locust control. – *South African Journal of Science*, **89**(9), 412-413.
40. **ANONYME, 2004.** – Micron application equipment is made to measure for locust control. – *International Pest Control*, **46**(5), 278-280.
41. **ANONYME, 2004.** – *Gryllus brachypterus* Ocskay, 1826 (currently *Euthystira brachyptera*) and *Gryllus brachypterus* Haan, 1842 (currently *Duolandrevus brachypterus*) (Insecta, Orthoptera) : specific names conserved. – *Bulletin of Zoological Nomenclature*, **61**(Part 2), 126-127.
42. **ANONYME, 2005.** – From the archive. – *Journal of Cell Biology*, **169**(5), p. 704.
43. **ANONYME, [s. d.].** – *Catastrophes naturelles et péril acridien, Rabat, 28-29-30 novembre 1988 – Péril acridien Kawarith al-tabi'iyah, afat al-jarad Afat al-jarad*. – 122 p., ill. (some col.), maps, 24 cm, includes bibliographical references.
44. **ANONYME, [s. d.].** – *Database on food and agriculture for Eastern Africa FAO Global Information and Early Warning System on Food and Agriculture*.
45. **ANONYME (COPR), (Sd.).** – *Map of incubation and hopper development periods of the Desert locust : Northern Africa and southwestern Asia (156)*. Dressée en 1973. – Centre for Overseas Pest Research : London. – 6 col., 68 x 46 cm.
46. **ANONYME (FAO), 1980.** – *Report of the 14th session of the Commission for Controlling the Desert Locust in the Eastern Region of its distribution area in South-West Asia, held in Rome, Italy, 10-14 November 1980*. – **AGP/1980/M/7**, FAO : Rome. – 23 p, 28 cm.
47. **ANONYME (FAO), 1980.** – *Report of the 24th session of the FAO Desert locust control Committee*. – FAO : Rome. – IV + 67 p.
48. **ANONYME (FAO), 1982.** – *Report of the 26th session of the FAO Desert locust control Committee, Rome, Italy, 4-8 october 1982*. – FAO : Rome.
49. **ANONYME (FAO), 1985.** – *Locust newsletter*. – Coll. : Food and Agriculture Organization of the United Nations : Rome. – 30 cm.

50. **ANONYME (FAO), 1992.** – *Rapport de la 18<sup>e</sup> session de la Commission de lutte contre le criquet pelerin en Afrique du Nord-Ouest, Alger (Algérie), du 24 au 29 octobre 1992.* – **AGP/1992**, Commission for Controlling the Desert Locust in Northwest Africa – maps, 30 cm.
51. **ANONYME (FAO), 1992.** – *FAO Commission for controlling the Desert locust in the Near East, session 1992, Cairo, Egypt.* – FAO : Rome. – 40 p.
52. **ANONYME (FAO), 1993.** – *FAO Desert locust control Committee, 32nd session.* – FAO : Rome.
53. **ANONYME (FAO), 1994.** – *FAO Commission for controlling the Desert locust in the eastern Region of its distribution area in Southwest Asia, 19th session, Tehran, Iran.* – FAO : Rome. – 50 p.
54. **ANONYME (FAO), 1994.** – *Report of the 19th session of the Commission for controlling the Desert locust in the Near East held in FAO-RNEA, Cairo, Egypt, 2-7 October 1993.* – FAO : Rome. – 42 p.
55. **ANONYME (FAO), 1995.** – *Sahel weather and crop situation in Agriculture Organization of the United Nations, Global Information and Early Warning System – Preliminary assessment of cereal production in Western Africa.* – **6**, FAO / Global Information and Early Warning System on Food and Agriculture : Rome.
56. **ANONYME (FAO), 1995.** – *Report of the 1st session of the executive Committee of the Commission for controlling the Desert locust in the eastern Region of its distribution area in southwest Asia, Rome (Italy), 23-25 January 1995.* – FAO : Rome. – 24 p.
57. **ANONYME (FAO), 1995.** – *Report of the 33rd session of the FAO Desert locust control Committee, Rome, Italy, 16-20 January 1995.* – FAO : Rome.
58. **ANONYME (FAO), 1995.** – *Report of the 4th session of the Desert locust technical group, Rome, Italy, 21-24 March 1995.* – FAO : Rome. – 9 p.
59. **ANONYME (FAO), 1995.** – *Report of the 20th session of the FAO Commission for controlling the Desert locust in the eastern Region of its distribution area in southwest Asia, Islamabad, Pakistan, 25-28 June 1995.* – FAO : Rome. – 29 p.
60. **ANONYME (FAO), 1996.** – *Report of the 5th session of the Desert locust technical group, Rome, Italy, 25-28 June 1996.* – FAO : Rome. – 30 cm.
61. **ANONYME (FAO), 1997.** – *Report of the 11th session of the Executive Committee, FAO Commission for Controlling the Desert Locust in the Eastern Region of its Distribution Area in Southwest Asia, Rome, 3-5 March 1997.* – FAO : Rome. – 13 p., 30 cm.
62. **ANONYME (FAO), 1998.** – *Report of the 6th session of the Desert Locust Technical Group Rome, Italy, 6-8 October 1998.* – **W/X0183E/1/10.98/225**, FAO – Desert Locust Technical Group : Rome. – 4 p, 15 p., 30 cm.
63. **ANONYME (FAO), 1998.** – *Report of the 21st session of the FAO Commission for Controlling the Desert Locust in the Eastern Region of its Distribution Areas in Southwest Asia New Delhi, India, 25-27 November 1998.* – FAO : Rome. – 33 p., 30 cm.
